

pluscloud VMware

The German VMware cloud for your IT modernization

Your challenges

Outdated IT architectures, poor performance, compliance requirements, skills shortages – these are just a few of the reasons organizations are feeling the pressure to innovate. They need to rip out and modernize legacy IT to meet their challenges and stay competitive.

Our solution

pluscloud VMware is the next logical step in your digital journey to the cloud. It simplifies IT modernization by allowing you to stay in the VMware environment you already know from previous systems. At the same time, you can reap the benefits of the cloud and combine it with other innovative services. In addition, we can advise you on your individual architecture, taking into account any legacy hardware you may have.

Your benefits at a glance:

- + Familiar VMware environment makes IT modernization easy
- + BSI C5 Type II & GDPR-compliance
- + VMware Sovereign Cloud
- + Cost transparency: Pay-as-you-go & free traffic
- + Public cloud, private cloud or private nodes
- + Fully integrated backup & disaster recovery solution
- + High performance & geo-redundancy on request
